### DETAILED ACTION

1. Claims 1-11, 14, and 17 are pending.
2. Claims 12, 13, 15, and 16 have been canceled.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.
4. Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "e.g." renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

5. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Art Unit: 1625

6. Claims 1-11,14, and 17 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims of prior U.S. Patent No. 7,109,213. This is a double patenting rejection.

The claimed subject matter is identical. See the instant claims.

7. The Information Disclosure Statement filed June 22, 2004 has been considered. The references alone or in combination forms do not teach nor suggest the structurally similar compounds as the examined subject matter. Accordingly, no rejections bases upon prior art are made.
